What Our Customers Are Saying 22

Contact Us..... 23

WELCOME

I'm Donna Booth, owner of Prestige Printing - FASTSIGNS in Columbus, Indiana. My team and I work hard to solve your visual communications challenges, no matter what they entail. We have a diverse staff that has experience with everything from simple business cards to complex presentation packages; from humble banners to full fledged electric channel letters for your business - and everything in between.

Our shop is located at 1307 12th Street in Columbus. Here we create unique pieces for our customers, both digitally and physically, that help them communicate, share, discover and build stronger relationships with their clients.

We are dedicated to providing the best customer service, from beginning to end, for all projects. Our creativity and craftsmanship are second to none. **In-house production** allows us to turn around rush jobs when needed, and also take the time to plan out larger, more complex campaigns. Most importantly, we work tirelessly to make sure that, no matter how detailed or esoteric, we help our customers bring the projects they envision to life.

I hope the next time you have a need to communicate with your employees, clients or the general public that you would allow myself and the team of Prestige Printing - FASTSIGNS to help. I am extremely proud of the work we have created in the past and I look forward to what we will create for you in the years to come.

COVID-19 PRODUCTS

2020 has been quite a challenging year to say the least. To support our local businesses, Prestige - FASTSIGNS has multiple solutions to help maintain social distance and properly label your space. We also have customizable ideas that are designed to keep your employees, students and clients safe. Any of these products can be completely customized for your business, school or organization.

Custom Masks

We're all looking ahead to a "new normal", and with that comes face masks. They've recently become an essential item, and it is uncertain how long they'll stick around. Don't settle for boring when you can embrace your own style, or your company's brand identity. **Custom Masks** for your company, team or organization to keep you safe and promote brand awareness at the same time.

After years of learned behavior, standing six feet apart is easy to forget. Help guide customers, students and visitors with easy to read **Floor Markers**. Available in multiple shapes and designed to match your brand, these graphics will help keep your location safely social distanced.

Floor Markers

Health Posters

It never hurts to remind people how to stop the spread of COVID-19. We have several **Health Posters** featuring infographics we can customize for your organization that show information, statistics and advice from the CDC. These are great solutions to place at the entrance to buildings, in kitchens or in bathrooms.

To aid social distancing many organizations find themselves closing areas of seating, bathroom stalls or sinks, dining tables and more.

Stay consistent with your brand and get your message across with **Reminder Graphics**. These show people what designated areas are open and which are closed. They are also custom designed to fit your exact needs!

Reminder Graphics

Sanitation Stations

Another popular solution are **Sanitation Stations**. These portable stands allow you to place sanitizer bottles anywhere in your business, campus or facility. With refillable sanitizer, you can use these branded stands to keep events safe, for years to come.

! Includes the entire kit!
We deliver and assemble too!

Sometimes the simplest solutions are still the best. Keeping a small bottle of **Hand Sanitizer** in your pocket gives you the freedom to clean your hands as often as you want. We can customize the labeling on these, making them a great branded handout for clients, employees or students.

! This is available in multiple sizes and styles!

Sanitizer Bottles

BUSINESS ESSENTIALS

Every business needs **letterhead**, **envelopes** and **business cards**. These are the essential three elements that businesses use to share employee contact information, send correspondence and provide official, written company information.

Business Cards

In these times, if your business doesn't have a **website** you are missing out on a large group of potential customers. Regardless of whether you need a full online store or just a basic online presence, we can help.

! Our sites are designed to look great across smart phones, tablets, laptops and desktops. You can also edit content yourself to keep your site up to date.

Web Design

! Feeling hi-tech? Ask us about interactive PDF forms.

Forms

Brochures

Most businesses will also have brochures and some type of forms (invoices, job tickets, and more) they use in their day to day operations. We can print several different styles and sizes of both to accommodate your needs.

SIGN UP FOR MORE SALES

Maximizing your company's exposure is essential to get your name in front of potential new customers. With signage solutions from Prestige - FASTSIGNS, like **vehicle wraps**, **channel letters** and **monument signs**, you can do just that!

Vehicle Wraps

Vehicle graphics can be small or totally cover a vehicle's exterior. For smaller pieces, please see [Products on The Go](#) on page 9

Channel Letters

Channel Letters (or electric signs) make a statement and are the initial contact most customers have with your business. They are essential in helping customers locate your office or shop!

Monument Signs

If your signage needs entail frequently changing tenants or perhaps even daily messages a **Monument Sign** is exactly what you need. These signs can be ordered with or without digital displays.

Frosted Vinyl

Frosted vinyl on glass windows and doors gives your artwork a clean, upscale look.

Dimensional Lettering

If you want to make a bold statement in your office, try **dimensional lettering**. The natural three-dimensional effect will draw lots of attention from clients and staff.

Life moves fast - help your business keep up with **indoor digital signs**. These displays allow you to have colorful, animated messages with optional sound. They are the ultimate way to draw customer attention.

Indoor Digital Signs

PRODUCTS ON THE GO

Banners

Outdoor Banners are a very cost effective way to draw attention! Great for special events, job openings, grand openings and so much more! Can be attached to posts or almost any other type of surface with grommets.

Trade Show Graphics

When your business needs to make a splash, check out **Trade Show Graphics!** You can order specific pieces or an entire set depending on your presentation needs. We can custom design art to fit your company identity as well!

One of the most trusted, classic types of signage is **Yard Signs**. Small enough to not get in the way, but big enough to get your message across. Yard Signs are a versatile tool to communicate upcoming events, directions, political campaigns and more!

Yard Signs

Advertise your company on the go with **Vehicle Graphics!** Showing important information in a clean, concise format, they let customers know exactly who you are and what you do.

Vehicle Graphics

Promotional Products

The best advertisements are the ones that people keep! **Promotional items** give customers an item they can use everyday that carries your branding and information. The next time your customer reaches for a pen, make sure it has your phone number on it!

! There are 1000s of different promotional items available. Pens, stress relievers, can koozies, notepads, phone cases, frisbees, umbrellas and lots more! Check out www.prestigeteam.biz for a full list.

When you need to give your customer information on the go, you need **Printed Handouts**. Leave behind a door hanger, mail a targeted postcard or hand out a brochure outlining your services. These pieces are a great way to give customers information about you for them to read later!

Printed Handouts

SPECIAL DELIVERY

If you have a mailing list of addresses you would like to mail to, **Standard Mail** is the choice for you. No matter where in the country your recipients are located, we will check their addresses and work directly with the post office to set up your art for mailing.

If you don't happen to have art, our designers can build that for you too. Prestige offers a turnkey solution for reaching your customer base.

If you would prefer to target specific locations, check out EDDM mailings, which don't require a list of any kind.

Standard Mail
(First Class, Bulk Mail)

EDDM
Every Door Direct Mail

EDDM (Every Door Direct Mail) is the best way to target geographic areas with mail. For example - if you are opening a new restaurant, you could send out an appetizing offer to residents in a area around the location - or for political campaigns, you can target areas where your constituents live.

The beauty of the EDDM mailer is you only have to choose your designated delivery areas and provide the post office the proper quantity. You never have to worry about addresses or returned mail.

We handle the whole process for you, from design, printing, working with the post office and delivering the pieces to them.

If you are a non-profit organization, let us know! You might be eligible for discounted postage on standard or EDDM mailings. You must be registered with the USPS, but we can guide you there too.

WALL OF FAME

When you have a really awesome photo, Instagram only goes so far. Bring your best photos to life with **Canvas prints**. Our staff will print your photo directly on canvas and wrap the frame. The only thing you have to do is hang your masterpiece.

Canvas Prints

Poster Prints

Need a high quality, oversized print? Check out our **Poster Prints**. Printed on high-quality premium photo paper, these durable prints are color accurate and high resolution.

Optionally, these can be mounted on foam core for presentations, easels or framing.

Backlit Signs are similar to snap frames, but they have backlighting and are printed on a transparent film. This produces deep color and allows your signs to be visible even in the dark.

In addition to ensuring your signs look their best, if you don't already have a backlit sign frame our representatives can also help you select one that meets your needs.

Backlit Signs

THE GREAT INDOORS

Why should vehicles have all the fun? **Indoor wraps** use the same process as you would use to wrap graphics on a vehicle, but apply it to common indoor items. Imagine taking an older table and covering the top of it with a new, attractive and functional design.

We can wrap just about anything! Ask your representative today about wrapping objects in your office to give them a new life.

Indoor Wraps

Retractable Banners

Portability has become a major part of modern life. With our **Retractable Banners** you can have the best of both worlds - a large, full size, self-standing banner for displays, tradeshow or the lobby of your office. When you need to move it to a new location, the banner conveniently rolls up inside of the base.

If you need to setup and tear down different banners for presentations or events, retractable banners are a game changer!

Do you have any large, empty walls that could benefit from a little art? **Vinyl Wall Art** is an affordable but visually powerful option to bring some life to those empty spaces. Either using typography or graphics, we can create attractive & fun art that represents your organization's goals, mission or strategy.

All these graphics are cut out, which also allows the wall behind to show through. This provides a more cohesive feel than attempting to cover the wall with a solid graphic.

Vinyl Wall Art

BOUND TO BE GREAT

Square Binding

Square Binding is a simple adjustment that has a big impact! It is just what the name implies - the spine of a booklet is flattened out instead of just being folded. The major benefits are a much nicer presentation, an easier time stacking multiple books, and it's FREE!

There is no additional charge to square bind, so let us know if you would like to try it on your next booklet project.

Booklets & Manuals come in many shapes and sizes. Things like manuals, handbooks, guides and many other items all fall in this category. Whether you need 5 copies or 5,000 we can do it.

We offer multiple styles, including stapled, square bound and coil bound books. Let us know more about your project and we'll come up with a solution that meets your needs.

Booklets / Manuals

Stapled Handouts

Anyone who has ever held a meeting or event probably has experience printing **Stapled Handouts**. At the simplest levels, these are just copies of important items collated and stapled together.

Your time is valuable - send over your files (or bring in original prints) and we can handle the printing, scanning, collating and stapling. You get finished handouts delivered directly to you.

WHO, WHEN AND WHERE

Nametags

Nametags can make a big impression when your staff or organization goes out - or has guests coming in.

With many sizes, shapes and styles we're sure to have one with your name on it!

It goes without saying that almost everyone uses **Calendars** everyday - which makes them an essential item to have laying around.

Even though we all have calendars on our phones and laptops, it's still super convenient to have a printed copy on your desk or wall. We do custom design calendars every year in many different sizes and styles.

Calendars

Architectural Prints

Many of our construction partners know all about our ability to print large **Architectural Prints**.

For everyone else, this is your chance to see. We can print large format blueprints on both 30" and 36" roll paper. Contact us today to find out how we can help with your next project.

GRAB THEIR ATTENTION

Exterior Signage

Exterior signage comes in many shapes and sizes, but it always gets noticed! These signs can be used for wayfinding, informational displays, or location specific directions. Attractive in shape and design, this signage will surely draw the attention you want.

We have many different styles of signs on different materials available. Of course we can custom design artwork to match your brand as well!

Window Graphics allow you to place large images over multiple windows, creating a tiling effect that highlights features, promotions or company values using your current glass windows or doors.

This material is available in both opaque and a one-way see through version that allows employees to see outside, but doesn't allow outsiders to see in.

Window Graphics

Murals

Murals are a fantastic way to add some artistic elements to your space. We can create cool graphics that draw in customers and make your installation get noticed!

SIGN O' THE TIMES

Digital Wall Displays

Digital Wall Displays provide a very powerful and valuable platform for delivering ever changing messaging. With digital wall displays you can include video, audio, photos and live information such as weather into a rotating display. Keep your clients updated on the latest information relevant to your business. The flexibility of digital wall displays can't be beat!

Digital Displays

Digital Displays are smaller, mobile digital signage. These signs can be programmed to display slide shows, video and play audio on a loop. Great for trade shows, high traffic product displays and lobby areas.

Digital Signs

For the most compact spaces, **Digital Signs** provide a way to harness the best features of digital media - rotating graphics, multimedia, and interactivity - in a package that can be mounted on a counter. This is a great solution for offices and waiting rooms.

TAKING CARE OF BUSINESS

Specialty Items

We are your source for **Specialty Items** like table tents, menus, coupons, coasters and more. When your restaurant needs to showcase drinks, food, limited time promotions, or just reinforce your brand, these specialty items will do the job!

Outdoor Lettering is a great option to showcase your brand in unique locations without the expense of channel letters. For locations that already have lighting or do not require 24 hour use, outdoor lettering is a great solution!

Outdoor Lettering

In-Store Displays

In-Store Displays are essential to any retail business. When you need custom designed, quick turn solutions let us know. With multiple material options and quick in-house production we can get your signage ready for major promotions or just a big one day sale. We have the equipment to cut in-house too, so we can handle large orders with ease!

For industrial and production settings **Floor Graphics** can make a huge difference. Placing directional and informational signage on the floor helps when large machines can obscure overhead signs. These graphics are also full color, very durable and non-slip. They can be removed making them ideal for temporary installations or changing production lines.

Floor Signs

ONLINE SERVICES

We invite you, especially in light of the effects of the COVID-19 pandemic, to take full advantage of our **Online Services**. Prestige offers multiple services that allow you to complete tasks online, saving a call or a trip to our office.

Online Ordering / Estimates

Our most popular feature by far is Online Ordering. This allows you to visit our website and provide your project's specifications and any files you may have. Your order is sent directly to our Customer Service department. If you have an existing account manager, we'll send it directly to them as well. Online orders provide you the fastest, most accurate service. Online orders have all the benefits of placing an order in person - you do not pay online, we will invoice you through our regular system. Online orders can also be cancelled via email or phone. Place your next order at www.prestigeteam.biz/orders

File Upload

Email is convenient, but let's face it - it's not great for sending huge files. Luckily we have a brand new File Upload tool on our website that allows you to send us your existing art, no matter what the size. Try it for yourself at www.prestigeteam.biz/upload

Electronic Invoices

Would you prefer to receive your invoices digitally delivered through email instead of printed copies in your mailbox? We now offer the ability for you to choose your desired format. Sign up online at www.prestigeteam.biz/invoices and we'll get you switched over. If you ever change your mind it's just as easy to switch back.

Digital Catalogs

Finally if you ever need an updated version of the very catalog you're reading now, visit www.prestigeteam.biz/downloads to get the newest version. We try to add new products and services on a regular basis to constantly give you new solutions to your visual communications challenges!

QUALITY BY DESIGN

For all projects, we offer custom graphic design services **in-house**. Our designers are experienced and are ready to help you tackle your visual communication and digital challenges. We use the latest versions of the Adobe Creative Cloud and can work with almost any type of file you may have.

If you have a large project that you need to discuss, our designers are available by appointment to meet and go over your needs and offer suggestions and recommendations. Our designers are educated on graphic design, web design, illustration, Photoshop, typography and more - so no matter what questions you have we can help provide the answers.

Our designers are available to create printed materials, mailers, logos, signage, web sites and more!

To schedule a design consultation, contact the Prestige - FASTSIGNS office. You can reach us by phone at **812-372-2500** or via email at info@prestigeteam.biz

CUSTOM ORDERS

Every job we create at Prestige - FASTSIGNS is custom made for the specific customer who ordered it. Designed, printed, packaged and delivered to your door. We maintain stock of a wide variety of papers, substrates and ink to cover the everyday needs of most of our customers.

Sometimes a customer will need a very specific stock, such as synthetic paper, or a specific Pantone Ink. In these circumstances we may need extra time to make sure we get the exact item you are looking for. If you have strict requirements for your project, such as color, paper, framing / mounting or installation please let your customer service representative know as soon as possible. This allows us the most time to get your order perfect.

WINNING COMBINATIONS

Great combos aren't just for fast food! Be sure to ask your CSR about some great combinations of products we can offer you from this catalog. Need booklets printed, addressed to individual people and mailed directly to them? We can do that. How about banners, yard signs and handouts for your community event? Done. Whatever your goal, we can put together a grouping of products that will get the job done, with the quality you expect from Prestige - FASTSIGNS.

WHAT OUR CUSTOMERS SAY

We use Prestige for all of our outside printing needs. The staff is always helpful and the finished product is always great!

Very pleased with the sign I received back from Prestige Printing. Really easy to communicate and get in contact with. If I wanted something changed they got back with me quick on a new design layout. Overall great company to work with. Highly recommend them.

FastSigns always does a great job and they were definitely fast.

The end product exceeded expectations, delivery date on time.

Fast obviously and very spot on from design to pricing. It's been a pleasure to work with this group for several years.

Fast turn around... Great group of people to deal with... Would recommend their services to anyone!

Excellent timely service and, most of all, delivered great results.

Prestige is always great to work with! Everyone there is willing to help me and to make sure I meet my deadlines.

Amazing response time and great service.
